

FAMILIES IN CRISIS HELP REQUEST

APPLICATION FORM

All requests must be for a one-time-only specific purpose. A "Family in Crisis" is defined as the family unit experiencing a catastrophe affection them in a potentially permanent manner. Examples include: fire, flood, accident, death, health issues, theft, children-at risk, etc.

Applications will be considered based on urgency and scope of each family's need, and will be evaluated by the Rotary Families in Crisis Committee. The committee will, in most cases, need to talk directly with the family to further understand the need and to help determine the appropriate action to be taken.

If the application is denied, or is found not appropriate for this program, every attempt will be made by the Committee to refer the applicant to another source of support.
